# Welcome to the natural perfumery

A symphony of a thousand scents of medicinal and aromatic herbs creates a unique experience on Lošinj Island. Light motive is an aerosol of crystal clear sea while, depending on the season, seductive citrus, relaxing lavender, immortelle or refreshing pine and rosemary vary.

During the whole year the nature provides a healing environment where the balance of the spirit and body comes first. Open all your senses and let yourself enjoy the profound scented sensation of the magnificent nature of the island.

*Welcome to Lošinj, the island of vitality!*

# Mythology of health & vitality

## APSYRTIDES

2 ct. B.C.

The legend says that the island Apsyrtides arose from the body parts of mythological hero Apsirith, who was killed on a trick by Argonauts and Medea and thrown into the sea.

## SEA FORCE

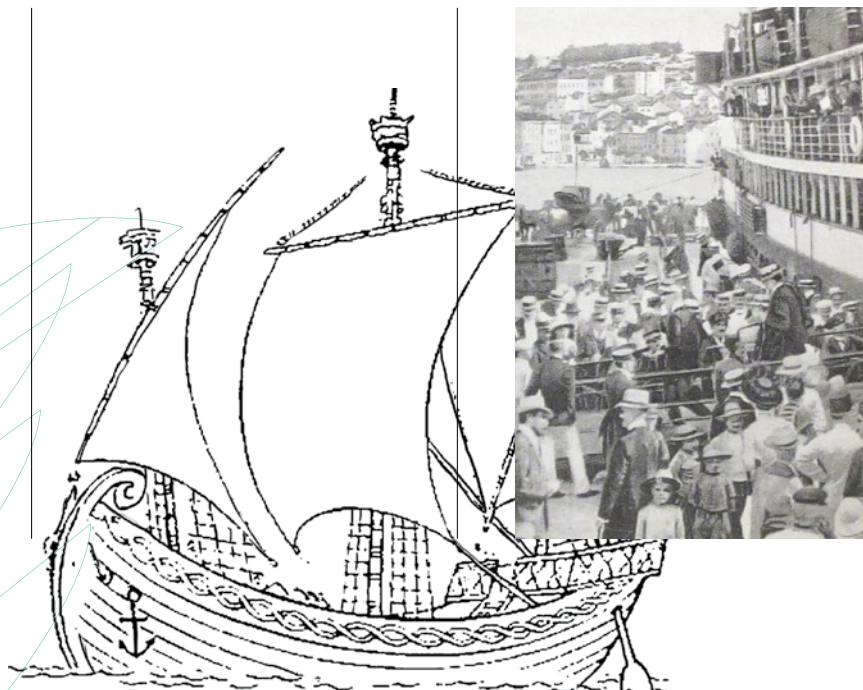

19th century

By the 19<sup>th</sup> century Lošinj arose into one of the leading regional sea forces and the town Mali Lošinj became the second most important port in the Adriatic Sea (after Trieste). ## CLIMATIC HEALTH RESORT AND A PLACE TO RECOVER

1892

In 1892 Auстро - Hungarian provincial government in Vienna declared Mali and Veli Lošinj an official climatic health resort and a place for recovery based on researches and studies on exceptional characteristics and effect of climate on health. In this way the touristic boom of the island began, and the island became the favorite destination of Auстро - Hungarian aristocracy.

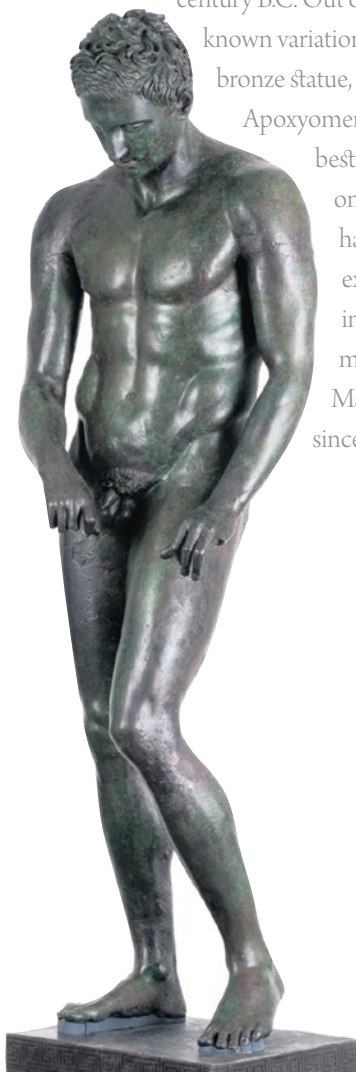

## APOXYOMENOS

1999

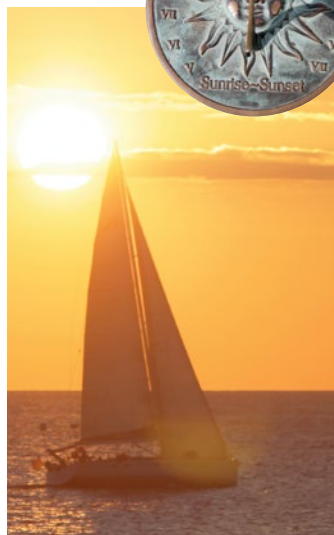

Between the small island Vele Orluje and the island of Lošinj a bronze statue of a young athlete, of an unknown author, was found. It dates between the 2<sup>nd</sup> and 1<sup>st</sup> century B.C. Out of eight

known variations of the bronze statue, the Lošinj Apoxyomenos is the best preserved one and has been exhibited in the museum in Mali Lošinj since 2016.

# Centuries of healing tradition

Veli Lošinj is a small port located close to the bay on the South-East side of the island. The port is dominated by an impressive church of Saint Anthony the Abbot, Venetian tower and numerous colorful houses. In the narrow streets that branch out from the port, luxury villas which belonged to the captains and the wealthy Austro-Hungarian aristocracy can be found. With their simple architecture and spacious gardens full of scented and exotic herbs, brought from long distance journeys, leave you breathless. Even today, in the Lošinj's gardens you can find more than 200 plants, from pompous bougainvillea to the exotic eucalyptus and sequoia trees, which makes this small town a very special destination on the Adriatic.

Nearby Veli Lošinj, there is a small, picturesque fishing port Rovenska. Dominant pier, beautiful beaches, fishing atmosphere and friendly people will give you the most enjoyable moments, along with the traditional specialties of Lošinj, fragrant olive oil and a glass of homemade wine.

*Numerous studies were conducted on the advantages of the unique climate, rich vegetation and medical aerosols. Their results confirm the beneficial effect of Lošinj natural factors on: airways, growth and development of children, and dermatology and allergy problems.*
